

## Market Report for Thursday June 9

We had 2001 cattle for this sale. Market was fully steady to \$5 higher than last weeks explosive sale. One pot load of yearling steers 710# at \$179.25 and one pot load of yearling heifers 683# - at \$175.25. Many big quotes today, but one of the biggest was a set of black weaned Fall calves weighing 600# at \$216.00. They were green, long time weaned, and fancy. Lots of takes for all classes.
